**DETAILED ACTION**

***Response to Arguments***

1. Applicant's arguments, see Response filed 9/14/05, with respect to the rejection(s) of claim(s) 1-6 under 35 USC §102 have been fully considered and are persuasive. Therefore, the rejection has been withdrawn. However, upon further consideration, a new ground(s) of rejection is made in view of 35 USC §112.

***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1 & 6 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, lines 12-14 and claim 6, lines 10-12, the recitation "wherein when the region discrimination unit determines that the target pixel is a pixel in the character edge regions the image output unit outputs image data without processing by the first processing unit" in conjunction with the

Art Unit: 2624

claim subparagraph describing the image processing that is performed when the target pixel is a pixel in the continuous tone region does not clearly indicate the relationship of these two cases. They appear to be intended as two alternatives, one or the other of which applies to a given pixel, and should apparently be recited in a clearly separate manner.

***Allowable Subject Matter***

4. Claims 4-5 are allowed.

5. Claims 1 & 6, insofar as they are understood, would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.
